Application Support Engineer

Porto, Portugal | jp09061979@gmail.com | linkedin.com/in/jpintosilva | jcpsadmin.github.io

PROFILE

Application Support Engineer with 20+ years in technical support, service desk and IT operations. At Siemens, works alongside a development team on a customer-facing application, investigating incidents through SQL and database analysis and REST API troubleshooting, and turning technical evidence into clear findings for engineering. Strong background in critical incident response in complex environments. Building cloud, cybersecurity and AI skills, with a clear path towards L2/L3, production support and DevOps-oriented roles.

EXPERIENCE

Application Support Engineer · Siemens

Jul 2024 – Present

Porto, Portugal

- Provide technical and application support in collaboration with a development team on a customer application.
- Investigate issues using system data, databases and technical evidence, with SQL as a core troubleshooting tool.
- Analyse application behaviour through REST API troubleshooting and testing.
- Communicate findings to development teams to drive incident resolution.
- Deepening hands-on knowledge of Linux, SQL, Cloud, Cybersecurity and AI.

Service Desk Analyst · Farfetch

Mar 2019 – Jul 2024

Porto, Portugal

- Handled incidents and service requests across a complex technology environment, working with application and infrastructure teams.
- Took part in critical incident response and cross-team troubleshooting.
- Managed accounts, user provisioning and access requests using Jira and Zendesk workflows.
- Onboarded new team members and contributed to knowledge sharing.

Technical Support Agent · Sage

Feb 2013 – Mar 2019

Portugal

- Supported customers using Sage software, troubleshooting application and technical issues end to end.
- Analysed problems systematically and escalated complex cases when required.

IT Support · Fundação Paulo Valada

2011 – 2012

Portugal

- Provided IT support and resolved day-to-day hardware, software and user issues.

Help Desk · DHV

2001 – 2011

Portugal

- Delivered IT help desk support, troubleshooting hardware, software and user issues across IT environments.
